INTER-OFFICE MEMO

Date June 24, 1981
To C. R. Brown
From J. Z. De Lorean
Subject

As you know we are a Sterling based company. When we established our transfer pricing we calculated it in dollars but it was a Sterling price. Thus the improvement in the exchange rate should generate substantial extra profits for DMCNA.

To clear up the inter-company account, leave the transfer price as it is until the debt to DMCL has been paid off. At that time the transfer price should be paid on a Sterling basis converted to dollars as of the date of shipment.

Please provide me with current status of these accounts.
